This issue we have a special treat! Swinehard Smallsoul ran for a couple years in a small Icelandic newspaper. When I came over here, I made a small english-language sample to show to syndicates. None of 'em wanted it tho! It would be a shame to let all these good gags rot on the shelf, so I decided to feature 'em in KARNO'S KLASSICS. Hope you get a chuckle or two out of them!

ENJOY THE SHOW!
